The enhanced Onli™ Intermittent Catheter

Designed with ease in mind,
it's ready-to-go, helping users
feel confident and comfortable,
whatever their day may bring.

Onli™
Intermittent Catheter

Small improvements that add up to big results

Introducing the improved hydrophilic Onli™ intermittent catheter. We've built on the features users love with some small but smart improvements.

What users already love about the Onli™ catheter

The Onli™ catheter is designed to provide a hassle-free and mess-free experience for users. It's ready-to-go to help users feel comfortable and confident, every day.

- Easy, touch-free insertion
- Prehydrated and ready-to-use right out of the package, no extra steps required
- Ergonomic, sliding gripper (on 16" catheter) and flexible funnel help provide control

What's improved?

Easier to open

two finger holes and peel-apart packaging

Enhanced lubrication

more lubricious hydrophilic coating for easier insertion and withdrawal

Clear catheter tube

increased visibility and a more appealing look

Designed to reduce user impact on the planet

Its foil packaging is **up to 38%* lighter** for less waste

The more environmentally-friendly catheter is **free from PVC, DEHP and phthalates**

*The foil packaging for the 16" and 7" catheter is 37% and 38% lighter, respectively, than the previous packaging design.
