

Inspired updates for easier use

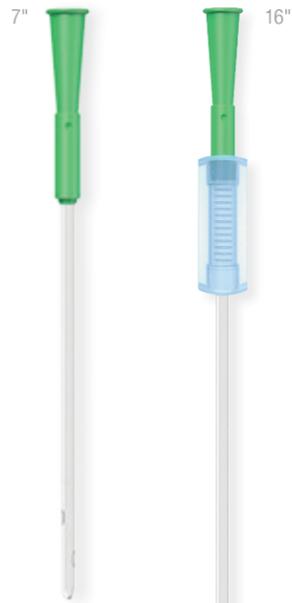

The newly enhanced **Onli™** Intermittent Catheter delivers an improved everyday experience for users. Designed with ease in mind, it's ready-to-go, helping users feel confident and comfortable, whatever their day may bring.

Onli™
Intermittent Catheter

Small improvements that add up to big results

Introducing the newly improved **Onli™** catheter. We've built on the features your patients love with some small but smart improvements that will make a big difference to their self-catheterization experience.

What users already love about the **Onli™** catheter

The **Onli™** catheter is designed to provide a hassle-free and mess-free experience for users. It's ready-to-go to help your patients feel comfortable and confident, every day.

- Easy, touch-free insertion
- Ready-to-use right out of the package
- Prehydrated hydrophilic catheter
- Flexible funnel to control the flow of urine
- Ergonomic, sliding gripper on the 16" catheter
- Reduced spill and stain-free*

“Having an intermittent catheter product that works perfectly with your body shape and size makes all the difference.”

Female using intermittent catheters for 13 years

*The catheter does not stain common fabrics (i.e., denim, linen, polyester and cotton) if the contents are spilled.

What's new?

Easier to open:
two finger holes and
peel-apart packaging

Enhanced lubrication:
more lubricious hydrophilic coating
for easier insertion and withdrawal

Clear catheter tube:
increased visibility and a
more appealing look

Nearly 90%

of clinicians agreed that the packaging is
easier to open than the previous design.

Hollister Data on File, BA-08831R, 2022.

Feel good about the products you recommend

The **Onli™** catheter has been designed to reduce user impact on the planet: its foil packaging is **up to 38%* lighter** for less waste and the new more environmentally-friendly catheter is **free from PVC, DEHP and phthalates**.

*The foil packaging for the 16" catheter and 7" catheter is 37% and 38% lighter, respectively, than the previous foil package design.

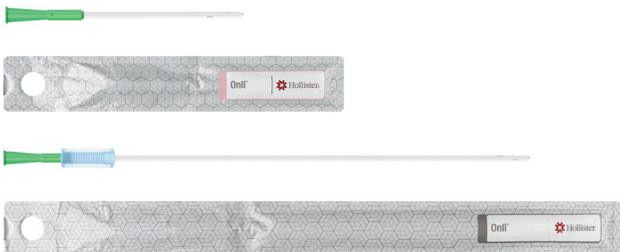

Committed to better

We strive to improve our products so that they can support the everyday lives of users. We are committed to better because we know even the small changes can make a big difference.

Size	16" Length	7" Length
8 Fr	 82084-30	 82081-30
10 Fr	 82104-30	 82101-30
12 Fr	 82124-30	 82121-30
14 Fr	 82144-30	 82141-30
16 Fr	 82164-30	

*The foil packaging for the 16" catheter and 7" catheter is 37% and 38% lighter, respectively, than the previous foil package design.
